Hooksett Sewer Commission
Workshop Meeting Minutes
April 19, 2022

The workshop started at 10:00am. Present were Commissioner Sid Baines and Commissioner Richard Bairam.

John Lyscars was in to see the Board. He has never been to a Sewer Commission meeting and wanted to sit and monitor the meeting. The Board welcomed him to listen to the workshop.

The Board spent 40 minutes reviewing the report of Superintendent Ken Conaty and Asst. John Clark. No Decisions were made.

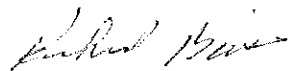

John Lyscars asked the Board if he could give the Board a presentation on what his committee is planning on doing with the property for the proposed Community Center. The full Board was not present. The Board told John they were not planning on his presence at the meeting but they had a few minutes and they would listen to him. He gave his presentation and the Board informed him that they would rather meet with Mr. Lyscar's whole Board and not just him. No decisions were made.

At 10:35 David Campbell and Ron Corriveau came in to discuss TIF matters as it pertains to their property just south of the treatment plant and an update on running pipe from Martins Ferry to the plant. The Board asked if they would be willing to commit to some of the pipe if the Sewer Commission could not pay. D. Campbell was non-committal. No other decisions were made.

At 10:50am Bruce Kudrick was in to see the Board to ask permission to be the Hooksett Sewer Commission representative to the Heritage Commission for the reprinting of history of the Sewer Commission. He said previous history of the Sewer Commission is not totally accurate and he would like to correct. No decisions were made.

The workshop ended at 11:57.

Respectfully Submitted,

Richard Bairam
Clerk
